Claims 1-4 and 6-15 are presented for examination.

Applicants' amendment, response and information disclosure statement filed February 2, 2009 have been received and entered.

Accordingly, the rejection made under 35 USC 112, first paragraph (Written Description) as set forth in the previous Office action dated October 31, 2008 at pages 3-5 as applied to claim 8 is hereby withdrawn because the applicants amended claim 8 to recite the preferred aqueous base.

Accordingly, the rejection made under 35 USC 102(b) as being anticipated by JP 61-238894 A of PTO-1449, hereby known as Sunstar KK as set forth in the previous Office action dated October 31, 2008 at pages 5-6 as applied to claims 1, 3, 4 and 7 is hereby withdrawn because the applicants amended to claim 1 with an additional agent.

Claims 9-12 are withdrawn from consideration as being drawn to the non-elected invention (37 CFR 1.142(b)).

Information Disclosure Statement

The references not considered on the enclosed IDS dated 2-02-2009 do not have dates. Applicants are required to supply dates for these reference so that the Examiner can consider them.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140

F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thornton*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claim 1 is again provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 1 of copending Application No. 11/547,576; over claim 1 of copending Application No. 11/547,577; and over claim 1 of copending Application No. 12/086,091. Although the conflicting claims are not identical, they are not patentably distinct from each other because the only differences between the present claim and the copending claims lies in that the present claim, an additional agent is administered with the disaccharide and di-acid.

The present claim would anticipate the copending claims because the copending claims recite the term "comprising" and thus opens the claims to the inclusion of additional active agent(s).

Claim 1 is not allowed.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1-4, 6-8 and 13-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 61-238894 A of PTO-1449, hereby known as Sunstar KK in view of WO 97/14401 A1, hereby known as Nakajima et al., all of record, for reasons of record as set forth in the previous Office action dated October 31, 2008 at pages 7-8 as applied to claims 5 and 6.

Applicants' remarks regarding the combination of the two references, JP 61-238894 A of PTO-1449, hereby known as Sunstar KK in view of WO 97/14401 A1, hereby known as Nakajima et al., have been carefully considered, but are not deemed persuasive for the following reasons:

The combination of the two references may disclose other agent(s) fails to reflect the instant case of obviousness. The Examiner has specified the portions of each reference that he is relying on. The teachings are specific and are drawn to the issue of obviousness. The fact that applicants are relying on portions not relevant to this issue of obviousness does not persuade the Examiner of error in his judgment.

Further, applicants' claims fail to patentably exclude such other agent(s) since therein applicants recite the term "comprising".

The rejection made under 35 USC 103(a) is adhered to.

Claims 1-4, 6-8 and 13-15 are not allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
